Peabody Municipal Lighting Commissioner's Thomas D'Amato, Thomas Paras, Frank Peters, Robert Wheatley and Thomas Zellen, along with the entire staff at PMLP, extend sincere wishes for a safe, happy holiday season and a healthy and prosperous New Year!

We thank you for the continued confidence you place in your community owned, not-for-profit electric utility and appreciate your comments and suggestions.

Be Prepared For Snow and Ice....

The cold weather season is upon us and PMLP is ready for the snow and ice. **Are You Prepared??** Winter is never easy or predictable here in New England. Preparing now for storms and emergencies can save valuable time and frustration should you lose power. Prepare a "care" package for yourself and store it where you can easily get to it, even in the dark. Be sure to include flashlights, fresh batteries, canned food and a non-electric can opener. If your power does go out, remember we are here to take your call, all day, every day, anytime, day or night...even holidays!

Keep in mind that after a severe snow or ice storm power lines may be down and not always easy to see. Check your area before allowing children to play in the snow and always instruct them to stay away from downed wires. Call 978-531-5975 to report details on power outages or downed wires.

Please remember to keep utility meters and fire hydrants clear of snow. It is appreciated and could save valuable time in an emergency situation.
