

Peabody Municipal Light Plant

Community Owned. Not for profit. It's Ours.

PEABODY MUNICIPAL LIGHT PLANT ENERGY AWARENESS FORUM

When: June 22nd, 2022 at 7:00 p.m. (and then September 21st at 10:00 a.m.)
Where: McCarthy Auditorium at PMLP, 201 Warren St. Ext. Peabody, MA.
Frequency: Quarterly.

Dear Citizens,

At the recent meetings of the Peabody Municipal Lighting Commission (PMLC) there were instances of concerned citizens expressing the need for better communication. Since the PMLC meetings are not intended to suit that need, PMLP thought that everyone would be better served in a different forum. We value public comment and will continue to have "Remarks of the General Public" as part of PMLC meetings, but as intended, as brief remarks. However, we recognize the growing need to be a more outwardly active proponent of community awareness and development.

To facilitate an open line of communication, I have asked the Manager to hold periodic sessions which will be open to all PMLP customers interested in the important issues we face in the Energy Industry. Our thought is to have quarterly meetings in March, June, September and December. The March and September meetings will be during the business day. The June and December meetings will be evening.

One goal of the forum is to have the plant manager hear the concerns of ratepayers. Another is for the manager to provide updates to the interested public. It is the hope of the Commissioners that other positive outcomes will be realized.

I hope that you will be able to attend.

Agenda:

- Forum purpose and guidelines
- Meeting Frequency and Dates
- Statement from PMLP's Manager
- 2050 Decarbonization Roadmap Updates
- Open Session Q&A

Sincerely,

William Aylward, Chairman
Peabody Municipal Lighting Commission
